Address: Lahore, Pakistan (Home)

ABOUT ME

I'm pursuing a BS in Software Engineering driven by my deep passion for computers and programming. I spend my free time designing programs and websites, relishing problem-solving and logical thinking. My career aspirations continue to evolve as I explore various facets of technology.

I'm passionate about automation, front-end, and full-stack web development. My journey in Software Engineering is fueled by my lifelong love for computers and coding.
